

Penny Drive for Seva Chakkara Orphanage

Seva Chakkara is an orphanage that takes care of 86 children in the city of Chennai in India.

The orphanage however has no permanent accommodation and is forced to move from one rented place to another. This causes a lot of hardship of having to adjust to the new area especially since the children study in local schools. They also need to pay a huge rent which accounts for a substantial running expense. This penny drive is one of the efforts being made by Asha for Education to help Seva Chakkara get a permanent house.
